BY: Kevin M. Hart, P.E.
District Director

PROJECT SUMMARY: This project is to install two (2) 42" diameter HDPE Culvert Slip-Liners in SWR. The bidder must have slip-lined at least one (1) pipe 42" in diameter or larger in the past five (5) years. The pipe diameter of the existing culverts is 48" CMP and the length of the culverts is 41 LF and 37 LF. The Contractor will be required to inspect, clean and repair the culverts as needed to prepare host pipe. The existing culverts are underwater. Contractor will have 45 calendar days to complete the projects. There is no set budget and there is no bond required.
